FORENSICS FOR THE PATROLMAN

By

Jan Johnson, CSCSA

Retired Senior Crime Laboratory Analyst
Certified by State of Florida in Crime Scene
Analysis and Bloodstain Pattern Analysis

Certified by IAI

in Crime Scene Analysis

President of Forensic Pieces, Inc.

ABOUT YOUR INSTRUCTOR:

Jan Johnson is retired from the State of Florida with over forty years experience in law enforcement. After ten years with the F.B.I., Jan made the transition to crime scene analysis. She is recognized by the IAI as a Certified Senior Crime Scene Analyst and worked for FDLE in Pensacola, Florida for over twenty-two years. As a laboratory analyst and crime scene examiner, her field of experience includes detection, collection, and preservation of physical evidence, bloodstain pattern interpretation, trajectory analysis, buried body and skeletal remains recovery, clandestine laboratories, and numerous other procedures involving crime scene investigations. Due to her expertise in bloodstain pattern interpretation and crime scene reconstruction and analysis, Jan has testified in hundreds of criminal cases as an expert witness. Before retiring in 2004, Jan spent three years with the Escambia County Sheriff's Office as supervisor of the Crime Scene and Latent Print units, as well as overseer of ECSO's new crime lab, which she designed. Jan served in the highly distinguished role of President of the IAI in 2004, and Chairman of the Board in 2005, and considers herself honored to have been on the IAI's original Crime Scene Certification Board. Jan has served as President for the Florida Division of the IAI in 2007 as well as Chairman of the Board in 2008. She continues to serve on various committees within both the IAI and FDIAl. Jan has taught numerous courses in the areas of both Crime Scene and Bloodstain Pattern Interpretation and Crime Scene Reconstruction in the United States and abroad, including South Africa, Brazil, and Bermuda.

JAN JOHNSON, CSCSA

HOSTED BY: UNIVERSITY OF NORTH ALABAMA PUBLIC SAFETY INSTITUTE
HOST CONTACT: LATRICIA HENSLEY- LATRICIAH7@GMAIL.COM

FORENSICS FOR THE PATROLMAN

University of North Alabama

November 10-11, 2016

COURSE DESCRIPTION:

The number one reason why most crime scene investigations fail is that there was inadequate crime scene processing. Working a crime scene, whether minor or major, is a process that involves a wide range of skills. This course was developed as a refresher workshop for some patrol officers, or for the new officers with limited exposure and experience in crime scene processing. The detection, collection, documentation and preservation of physical evidence are key elements involved in every crime scene. This course will demonstrate some techniques you may have already acquired and assist in the development of new techniques which you may not be aware of in crime scene examinations. Forensic science is forever changing and new techniques and equipment are being developed to assist the law enforcement officer with the challenges of the "every scene every time" concept, and always striving for perfection

COURSE TOPICS:

- *Crime Scene Safety
- *Equipment Needs
- *Scene Security
- *Photography
- *Search Techniques
- *Note Taking, Report Writing
- *General Documentation of Physical Evidence
- *Sketching, Measurements
- *Biological Evidence Detection and Collection
- *Trace Evidence
- *Latent Impression Evidence
- *Awareness of Tire Track Evidence
- *Proper Evidence Packaging Techniques
- *Court Room Testimony

WHAT TO BRING TO THE COURSE:

Casual attire is suitable. It is highly recommended that students bring a laptop computer and a camera.

WHO SHOULD ATTEND?

This is a hands-on course that is specifically designed for patrol officers with or without experience. This course is taught in a manner in which the patrol officer can easily
