ADVANCED CRIME SCENE INVESTIGATION

By

Jan Johnson, CSCSA

Retired Senior Crime Laboratory Analyst
Certified by State of Florida in Crime Scene
Analysis and Bloodstain Pattern Analysis

Certified by IAI

in Crime Scene Analysis

President of Forensic Pieces, Inc.

ABOUT YOUR INSTRUCTOR:

Jan Johnson is retired from the State of Florida with over forty years experience in law enforcement. After ten years with the F.B.I., Jan made the transition to crime scene analysis. She is recognized by the IAI as a Certified Senior Crime Scene Analyst and worked for FDLE in Pensacola, Florida for over twenty-two years. As a laboratory analyst and crime scene examiner, her field of experience includes detection, collection, and preservation of physical evidence, bloodstain pattern interpretation, trajectory analysis, buried body and skeletal remains recovery, clandestine laboratories, and numerous other procedures involving crime scene investigations. Due to her expertise in bloodstain pattern interpretation and crime scene reconstruction and analysis, Jan has testified in hundreds of criminal cases as an expert witness. Before retiring in 2004, Jan spent three years with the Escambia County Sheriff's Office as supervisor of the Crime Scene and Latent Print units, as well as overseer of ECSO's new crime lab, which she designed. Jan served in the highly distinguished role of President of the IAI in 2004, and Chairman of the Board in 2005, and considers herself honored to have been on the IAI's original Crime Scene Certification Board. Jan has served as President for the Florida Division of the IAI in 2007 as well as Chairman of the Board in 2008. She continues to serve on various committees within both the IAI and FDIAl. Jan has taught numerous courses in the areas of both Crime Scene and Bloodstain Pattern Interpretation and Crime Scene Reconstruction in the United States and abroad, including South Africa, Brazil, and Bermuda.

JAN JOHNSON, CSCSA

ADVANCED CRIME SCENE FOR LAW ENFORCEMENT

University of North Alabama

October 3-7, 2016

COURSE DESCRIPTION:

This comprehensive 40 hour workshop will provide training and assistance in advanced crime scene techniques. This course was developed for detectives to advance their skills in the examination of major crime scenes. The latest research and application of new crime scene techniques will be among the topics for discussion. The course includes an overview of how to approach and examine major crime scenes, along with hands-on training and the opportunity to present the physical evidence recovered from mock scenes in a courtroom setting. All advanced instructional techniques will be illustrated with actual case scenarios. These training hours can be applied toward the International Association for Identification Crime Scene Certification application.

COURSE TOPICS:

- *Case Management
- *Safety and Advanced Equipment
For the Forensic Toolbox
- *Dust Track Evidence Recovery
- *Tool and Bite Mark Recovery
- *Alternate Light Source
Applications
- *Blue-Star Forensic Blood
Detection for Latent Blood
- *Latent Print Blood Enhancement
- *Autopsy Evidence
- *Bloodstain Pattern ID and
Documentation
- *Gunshot Residue
- *Report Writing
- *Expert Witness Testimony

WHAT TO BRING TO THE COURSE:

Casual attire is suitable. A laptop computer, digital camera with macro capabilities, tripod, alternate light sources, and barrier filters are highly recommended. A 35mm camera may be used in lieu of a digital camera

WHO SHOULD ATTEND:

This is a hands-on course that is specifically designed for crime scene officers with or without experience. This course is taught in a manner in which the crime scene officer can easily understand.
