**ADVANCED CRIME SCENE  
INVESTIGATIONS**

By  
Jan Johnson, CSCSA

Certified by State of Florida in Crime  
Scene Analysis and Bloodstain Pattern  
Analysis. Certified by IAI  
in Crime Scene Analysis  
President of Forensic Pieces, Inc.

**ABOUT YOUR INSTRUCTOR:**

Jan Johnson is retired from the State of Florida with over forty years of experience in law enforcement. After ten years with the F.B.I., Jan made the transition to crime scene analysis. She is recognized by the IAI as a Certified Senior Crime Scene Analyst and worked for the FDLE in Pensacola for over twenty-two years. As a laboratory analyst and crime scene examiner, her field of experience includes detection, collection, and preservation of physical evidence, bloodstain pattern interpretation, trajectory analysis, buried body and skeletal remains recovery, clandestine laboratories, and other numerous procedures involving crime scene investigation. Due to her expertise in bloodstain pattern interpretation and crime scene reconstruction and analysis, Jan has testified in over one hundred criminal cases as an expert witness. Before retiring in 2004, Jan spent three years with the Escambia County Sheriff's Office where she was supervisor of the Crime Scene and Latent Print units, as well as overseer of ECSO's new crime lab, which she designed. Jan served in the highly distinguished role of President of the IAI in 2004, and Chairman of the Board in 2005, and considers herself as having the privilege of being on the IAI's original Crime Scene Certification Board. Jan also served as President for the Florida Division of the IAI as well as Chairman for the BOD in 2008. She continues to serve on numerous committees with both the IAI and FDIAI. Jan has taught numerous courses in the areas of both Crime Scene and Bloodstain Pattern Interpretation in the United States and abroad, including South Africa, Brazil, and Bermuda.

JAN JOHNSON, CSCSA.

### COURSE DESCRIPTION:

This comprehensive 40 hour workshop will provide training and assistance in advanced crime scene investigation techniques. This course was developed for detectives to advance their skills in the examination of major crime scenes. The latest research and application of the newest crime scene techniques will be among the topics for discussion and field training exercises. The course includes an overview of how to approach and examine major crime scenes, along with hands-on training and the opportunity to present the physical evidence recovered from mock scenes in a courtroom setting. All advanced instructional techniques will be illustrated with actual case scenarios. These training hours can be applied toward the International Association for Identification Crime Scene Certification application.

### COURSE TOPICS:

- Case management
- Safety and advanced equipment for the Forensic Toolbox
- Dust track evidence recovery
- Tool and bite mark recovery
- Alternate light source applications
- Blue-Star forensic detection for latent blood
- Latent print blood enhancement
- Autopsy evidence
- Bloodstain pattern identification and documentation
- Gunshot residue
- Report writing
- Expert witness testimony
- And many more techniques!

### WHAT TO BRING TO THE COURSE:

Casual attire is suitable. A laptop computer, digital camera with macro capabilities, tripod, alternate light sources and barrier filters are highly recommended.

### WHO SHOULD ATTEND?

This is a hands-on course that is specifically designed for crime scene officers with or without experience. This course is taught in a manner in which the crime scene officer can easily understand.
