COURSE DESCRIPTION:

Specialized Crime Scene Photography & Diagramming is a 40-hour course with emphasis on the realm of digital photography uses in law enforcement, crime scene investigation and preservation.

This training uses a hands-on approach covering all aspects of crime scene photography from camera nomenclature, types of camera's, lenses, flash units, compass points, different types of scene photography, close-up's, macro, scaled images, proper layout of images, and specialized forensic photography.

The course is designed so that the student captures a large number of photographs in various situations as it applies to law enforcement and is broken into lecture, exercises, critique and practical examples to enhance the learning experience.

****Please read the materials to bring to class upon registration.***
