CRIME SCENE RECONSTRUCTION

By

Jan Johnson, CSCSA

Retired Senior Crime Laboratory Analyst
Certified by State of Florida in Crime Scene
Analysis and Bloodstain Pattern Analysis.

Certified by the IAI
in Crime Scene Analysis
President of Forensic Pieces, Inc.

ABOUT YOUR INSTRUCTOR:

Jan Johnson is retired from the State of Florida with over forty years of experience in law enforcement. After ten years with the F.B.I., Jan made the transition to crime scene analysis. She is recognized by the IAI as a Certified Senior Crime Scene Analyst and worked for the FDLE in Pensacola for over twenty-two years. As a laboratory analyst and crime scene examiner, her field of experience includes detection, collection, and preservation of physical evidence, bloodstain pattern interpretation, trajectory analysis, buried body and skeletal remains recovery, clandestine laboratories, and other numerous procedures involving crime scene investigation. Due to her expertise in bloodstain pattern interpretation and crime scene reconstruction and analysis, Jan has testified in over one hundred criminal cases as an expert witness. Before retiring in 2004, Jan spent three years with the Escambia County Sheriff's Office where she was supervisor of the Crime Scene and Latent Print units, as well as overseer of ECSO's new crime lab, which she designed. Jan served in the highly distinguished role of President of the IAI in 2004, and Chairman of the Board in 2005, and considers herself as having the privilege of being on the IAI's original Crime Scene Certification Board. Jan also served as President for the Florida Division of the IAI as well as Chairman for the Board of Directors in 2008. She continues to serve on numerous committees with both the IAI and FDIAI. Jan has taught numerous courses in the areas of both Crime Scene and Bloodstain Pattern Interpretation in the United States and abroad, including South Africa, Brazil, and Bermuda.

JAN JOHNSON, CSCSA.

****TO REGISTER, VISIT WWW.FORENSICPIECES.COM OR CALL US AT (850) 332-0141**

COURSE DESCRIPTION:

This comprehensive 40-hour course is designed for crime scene investigators, detectives, crime laboratory analysts and others in the field of forensic science that have the basic training and skills for crime scene examinations.

This course will provide assistance in connecting all of the forensic pieces for the purpose of crime scene reconstruction. A crime scene is a huge puzzle, and piece by piece we compile the physical evidence in each case.

The more difficult job is to try and connect those pieces to obtain the big picture, the scene reconstruction. This course will also assist in the documentation of physical evidence at the scene. Mock scenes for this course were designed to assist the student in the importance of scene documentation, and to obtain the maximum amount of accurate information for ultimate scene reconstruction. Some of the topics to be discussed include major crime scene disasters and buried body and surface skeleton physical evidence recovery. These training hours can be applied toward the International Association for Identification Crime Scene Certification application.

COURSE TOPICS:

- Equipment & Safety
- Crime Scene Management
- Trajectory & Shooting Reconstruction
- Gunshot Residue Examination
- Bloodstain Pattern Identification & Documentation
- Blood Collection Procedures
- Clothing Examination
- Photography of Footwear & Tire Track Evidence
- Bite Mark Investigation Techniques
- Autopsy Evidence
- Buried Bodies & Surface Skeletons
- Insects & Botany
- Alternate Light Source Applications
- Report Writing
- Preparation of Courtroom Presentations
- Expert Witness Testimony

WHAT TO BRING TO CLASS:

Casual attire is suitable; and a laptop computer would be highly recommended. Please bring a digital camera with macro capabilities

WHO SHOULD ATTEND?

This is a hands-on course that is specifically designed for crime scene officers with or without experience. This course is taught in a manner in which the crime scene officer can easily understand
