Forensic Pieces presents:

## ADVANCED CRIME SCENE INVESTIGATIONS

### In Honor of Our Beloved Founder of Forensic Pieces, Jan Johnson, CSCSA

We commit to you the same techniques, structure, and integrity that our fearless leader Jan Johnson carried with her to every scene, every training, every conference, every time. It will be our constant goal to strive, meet, and exceed the extremely high standards set by the one who led thousands all over the world to success in the areas of Crime Scene Investigation, Bloodstain Pattern Analysis, Shooting Reconstruction, Crime Scene Reconstruction, and so much more. Each instructor and training will reflect the legacy Jan wanted for her company and the forensic community. We appreciate all the continued support as we forge ahead our new path forward. As Jan Johnson would always say: Full Speed Ahead!

### ABOUT YOUR INSTRUCTOR:

Daniel Steelman serves as the Captain of the Baldwin County Sheriff's Office Investigations Command. Daniel is currently an IAI certified Senior Crime Scene Analyst, holds a Bachelor's Degree from the University of Southern Mississippi and a Master of Science from the University of Oklahoma. Daniel also serves as an HSI Task Force Agent, working federal crimes in the Southern District of Alabama. Daniel serves as a member of the Baldwin County Major Crimes Unit, Team Leader of the Baldwin County Sheriff's Office Crisis Negotiations Team and as an instructor in Crime Scene and Evidence related topics. Daniel formerly served as a Field Training Officer and as a U.S. Secret Service and FBI Task Force Agent, working on the FBI Innocent Images Initiative. Daniel has testified in hundreds of cases in municipal, state and federal court and has been qualified as an expert witness in bloodstain pattern analysis and shooting incident reconstruction.

### COURSE DESCRIPTION:

This all-encompassing 40-hour workshop will provide the investigator with both hands-on training as well as thought-provoking discussions while using advanced crime scene investigation techniques. This course was designed for detectives and crime scene personnel wishing to either refresh or advance their overall skills in the examination of major crime scenes while using proper documentation and examples of testing evidence as well as proper evaluation of the overall crime scene.

Using the latest research with the application of the newest crime scene techniques will be among the many topics of discussion. This training will incorporate numerous field training exercises to assist the investigator in honing the skills necessary to properly handle a crime scene, no matter how big or how small. The course includes an overview of how to approach and examine major crime scenes, along with interactive training while also allowing the opportunity to present the physical evidence recovered from mock scenes in a courtroom setting for peer review. All advanced instructional techniques will be illustrated with actual case scenarios.

These training hours may be applied toward the International Association for Identification Crime Scene Certification application. Don't miss out on this exciting training!

### COURSE TOPICS:

- Case Management
- Safety and Advanced Equipment for the Forensic Toolbox
- Dust Track Evidence Recovery
- Tool and Bite Mark Recovery
- Alternate Light Source Applications
- Blue-Star Forensic Detection for Latent Blood
- Latent Print Blood Enhancement
- Autopsy Evidence
- Bloodstain Pattern Identification and Documentation
- Gunshot Residue
- Report Writing
- Expert Witness Testimony
- And Many More Exciting CSI Techniques!

### WHAT TO BRING TO CLASS:

Casual attire is suitable; and a laptop computer is recommended for note-taking and presentations. A digital camera with macro-capabilities is recommended for the hands-on exercises; however, a cellphone camera will suffice if traveling with equipment is an issue.

### WHO SHOULD ATTEND?

This is a hands-on course that is specifically designed for crime scene officers, investigators, and any other individual needing to advance their crime scene investigative techniques, either with or without experience. This course is taught in a manner in which the crime scene officer can easily understand.
