In Honor of Our Beloved Founder of Forensic Pieces Inc., Jan Johnson, CSCSA

We commit to you the same techniques, structure, and integrity that our fearless leader Jan Johnson carried with her to every scene, every training, every conference, every time.

It will be our constant goal to strive, meet, and exceed the extremely high standards set by the one who led thousands all over the world to success in the areas of Crime Scene Investigation, Bloodstain Pattern Analysis, Shooting Reconstruction, Crime Scene Reconstruction, and so much more.

Each instructor and training will reflect the legacy Jan wanted for her company and the forensic community. We appreciate all the continued support as we forge our new path forward. As Jan Johnson would always say:

Full Speed Ahead!

WHO SHOULD ATTEND?

This is a hands-on course that is specifically designed for patrol officers, investigators, detectives, and crime scene personnel or without experience.

WHAT TO BRING?

Casual attire is suitable. It is highly recommended that students bring a laptop computer as well as a digital camera, however it is not required to attend this training.

MEET YOUR INSTRUCTOR

Daniel Steelman, CSCSA

Daniel Steelman is the Chief of Police at Robertsdale Police Department. Previously, he was a Captain at Baldwin County Sheriff's Office, leading the Investigations Command. A law enforcement officer since 2000, he's also become an IAI Certified Senior Crime Scene Analyst and holds degrees from the University of Southern Mississippi and the University of Oklahoma. He's a graduate of the FBI National Academy and has served on various federal task forces. Daniel is an expert in bloodstain pattern analysis and shooting incident reconstruction, having testified in numerous courts.

For his full professional background visit our Instructors Page at www.forensicpieces.com.

COURSE DESCRIPTION

Any deliberate effort made by an offender before police arrive to alter the pristine condition of a crime scene to purposely thwart the investigation and frustrate the overall criminal justice process is the essence of crime scene staging. Crime scene staging could be increasing due to public fascination with crime scene related media, enhanced awareness of forensic science application, and/or offenders' belief in their understanding of how crime scenes should look. This comprehensive three-day, 24-hour course is designed for crime scene investigators, detectives, crime laboratory analysts, and other forensic professionals involved in crime scene examination related work. This course explores what is known about crime scene staging and instructs students on how to use a new methodology for the early detection and analysis of potentially staged crime scenes. This course also integrates critical documentation techniques used to create a permanent record of bloodstain pattern evidence and/or firearms-related incident evidence for the purpose of a comprehensive, multi-disciplinary crime scene reconstruction towards supporting or refuting claims made by a would-be crime scene stager.

These 24 course hours have been approved by the International Association of Identification (IAI) to be applied to credit hours used to acquire IAI Crime Scene Certification as well as re-certification.

COURSE TOPICS

Equivocal Death Investigations, Historical Perspectives, Incidental Altercation in Scenes, Types of Crime Scene Staging, Primary Scenes, Secondary vs Tertiary Scenes, Red Flag Indicators, Note Taking, Report Writing, General Documentation of Physical Evidence, Biological Evidence Detection and Collection, Other Evidence to be Aware of and Collected, Profiling the Stager, Case Examples of Staged Scenes for Problem Solving.
